CAREER OBJECTIVE

Final-year Computer Science undergraduate with hands-on experience in software development, data analysis, and machine learning projects. Seeking an entry-level Software or IT role to apply strong problem-solving skills, build efficient applications, and grow in a professional technology environment.

EDUCATION

Bachelor of Technology – CSE (AI & ML) | 2022–2026 | CGPA: 7.96 (Expected 8.0+)
Malla Reddy Institute of Engineering and Technology, India
Intermediate (Class XII) | 2022 | 959 / 1000
Sri Chaitanya Junior College, Telangana
Class X | 2020 | Grade: 10
Swamy Dayanand High School, Telangana

TECHNICAL SKILLS

Programming Languages
Python, Java, C
Core Computer Science
Data Structures and Algorithms, Object-Oriented Programming, DBMS, Problem Solving
Data & AI
Machine Learning, Data Analysis, Feature Extraction, Basic Computer Vision, NLP fundamentals
Web & Tools
HTML, CSS, JavaScript, Firebase, Git, GitHub, VS Code, Jupyter Notebook

PROJECTS

Heartbeat Dynamics
- Developed a system to analyze heartbeat patterns using data processing and machine learning techniques.
- Performed data cleaning, feature extraction, and model evaluation using Python.

Real-Time Traffic Flow Analysis and Violation Detection
- Built a real-time traffic monitoring system using object detection and pipelined tracking techniques.
- Gained experience in computer vision and real-time data processing.

Smarter Banking Chat Fin System
- Designed an intelligent chatbot to assist users with common banking-related queries.
- Implemented NLP techniques to understand user input and generate relevant responses.

CERTIFICATIONS

Certificate of Achievement in Artificial Intelligence - United Latino Students Association.
Certificate of Achievement in Data Analysis - United Latino Students Association.
Deloitte Australia – Data Analytics Job Simulation.

STRENGTHS

- Strong logical and analytical thinking.
- Good coding and debugging skills.
- Quick learner with adaptability.
- Clear communication and teamwork.
